G.O. No. 1537 W

DATED 10

[Despatch Abstract.]

From the Chairman, Municipal Council, Bellary, Dis.No.1142/18-12-17 dated 13th December 191~

...ve the honour to state that the question of providing a building for the Municipal High school is of urgent importance. The rented building in which the school is now situated is sufficient to accommodate only seven classes and the remaining seven classes are accommodated in the sheds constructed of mud walls with thatched roof. The recent excessive rain fall has brought down the sheds completely to the ground and the Municipality was put to the sore necessity of closing all the classes that were being held in these sheds for want of accommodation. Besides, the school building is in the midst of most insanitary surroundings and it has been the hot bed of plague during the several and also the current year out-breaks. The plague is almost permanent in Bellary and the school had to be closed on every outbreak on account of rat fleas. The building has been condemned as a school house by the educational authorities.

2 The question of shifting the school from its present building to the town hall has been dropped, as the owner, Mr. K. Venkata Rao would not submit to the conditions laid down by the Government.

3. In the year 1914. a site for the school building was selected with the approval of the Government--vide G.O.No.Mis 503 dated 10-3-14 Plans and estimates were got prepared and the necessary sanction was obtained thereto. The proposed building was estimated to cost 1.14 lakhs. In G.O.No.398 dated the 11th February 1915 a site to the extent of 7.87 cents was assigned in favour of the Municipality out S.No.432/6. Then a reference was made by the Government in Memorandum Mis.No.6477-1 dated 22nd November 1915 wherein they asked as to how much of the estimated cost the public of Bellary were ready to bear. Public meetings were held from time to time to no purpose. The district is one of the poorest in the Presidency. The war and the frequent appearance of plague have seriously prejudiced the economic condition of the people. The levy of the water and drainage tax is fel by the public as a heavy burden.

In these circumstances, little or no contribution can be -- expected from the public.

For these reasons. I have the honour to request that the Govern ment will be pleased to provide for a school building in the ensuing

Budget. If the sanctioned estimate for Rs.1,14000 is considered to be too elaborate and costly, it may be cut down to any lesser amount just to meet the requirements of a mofussil school building.

The Council in its meeting held on 13-12-17 unanimously resolved to approach the Government with this request

---

Endorsement by the Director of Public Instruction, N.R.C.No.614/18 dated 23rd November 1918..

Resubmitted with reference to Government Memorandum No.367 A-1 dated 8th February 1918.

2. Attention is invited to the Chairman's letter C R.No.300/18 dated 4-10-18 a copy of which is herein enclosed and also to the plans and estimates for the construction of a new building for the school originally approved in1914 and to the revised rough plan with modifications in the direction of economy which has now been received from the Chairman. It will be observed that the Council now propose 16 class rooms, 2 halls, 1 headmaster's room, 1 masters' room and one room which has not been named, but which may be utilised for drawing purposes. Of the two halls, the hall downstairs may be used for science both theoretical and practical, the store room and apparatus room; that upstairs may be used for holding the C' group class in History, Mathematics and Vernacular, the library and the museum. Both the halls may be used for examination purposes when so required.

3. In G.O.No.206 Financial dated 19-3-18 a subsidy of Rs.50,000 has been sanctioned for the construction of a building for the school The question of grant of a further subsidy for the purpose may be considered next year if the final plans and estimates have been approved and work put in hand.

From the Chairman Delegate, Municipal Council, Bellary, Ref No.G.C. No.1063 A dated 5th December 1919.

With reference to Government Memorandum No8320-1 M dated 28th January 1919 and to the Director of Public Instruction's No.614 dated 3-12-19, I have the honour to forward herewith the plans and estimates the latter amounting to Rs.1,49,730 including centage charges, as shown in the margin for the Municipal High school, Bellary duly countersigned for favour of approval. The Superintending Engineer, III circle, Bellary who has prepared the above documents, recommends a grant of Rs.10,000

From the Chairman, Municipal Council, Pollachi, No.b.115,

To

The Secretary to Government, Public Instruction, F.R.C.,
No. dated 4th March

1 Chairman, Municipal Council, Pollachi, Ref. G.C.No.
dated 16th April 19

Order:-

The Government approve the proposal of the Municipal Council, Pollachi that a new building for the High School should be constructed at an estimated cost of Rs.1,2,000. In view of the inability of the Municipal Council to provide funds for the purpose, they are pleased to direct that the necessary amount of the scheme be met from Provincial funds.

2. The execution of the work will be undertaken by the Public Works Department. The existing hall, accommodation, property or covenants will be handed over to the Municipal Council for use as a High School, subject to the condition that the Council keep [illegible] under repair. The plans and estimates should be submitted to the Public Works Department.

3. The Council should recommend the disposal of the Public Works Department for utilization of the building the sum of Rs.50,000 sanctioned vide G.O.No.306 Financial dated March 1918.

Orders in regard to the resumption of the site [illegible] to the Municipal Council, [illegible]

11th February 1915 will be issued in the Revenue Department.

The Revenue Department with a copy of notes.

Forwarded to the Public Works Department
(By order)

M.V Varaghava Ayyar

Superintendent in charge

and the following alterations carried out:-

1. Altering the length and sizes of wooden joists and rolled steel girders wherever necessary.

2. Reducing the number of teak joists supporting verandahs in the first floor by increasing their intervals from 1'-3" to 1'-6"

3. Supplying an omission in the estimate of a rolled steel girder for carrying the roof over the staircase room.

4. Increasing the length of single collar pieces of out houses so that they may be fixed just above the top level of wall plates.

5. Constructing the piers hatched in red of the front and rear walls of the hall in ground floor with burnt stone in cement from top of basement to that of the extrados of arches over the adjoining door and window openings on either side.

6. Constructing with burnt stone in cement, all the verandah columns hatched in red in blue print, of ground and first floors and also increasing the top diameters of all columns in ground floor from 1'-6" to 1'-8".

7. Deleting Rs.5880 provided ~~for the~~ towards 'bonus', as the Estimate submitted by the S.E.

8. Omitting the spiral staircase and the interior porch columns as noted in C.A. No. 172/1920, as these are considered unnecessary

By these alterations the total amount of the estimate is reduced from Rs.1,23,400 to Rs. 1,21,200

IV. The Superintending Engineer's attention is drawn to the fact that the pier marked 'Y' between the door and window openings in the verandah and others similar to them in the class rooms in ground floor should be made at least 8'-0" long, while those corresponding to them in the first floor should be rearranged so as to bring the door and window openings in the two floors symmetrically about the same axis.

V. With these remarks the drawings and the estimate as altered in the Chief-Engineer's Office amounting to Rs. 1,21,200 are recommended for approval.

Subject:- Construction of new buildings for the Bellary Municipal High school.

---

x x x

Financial Department

The buildings for the Municipal High school are estimated to cost Rs.1,23,400 + 26,330 for centage charges or a total of Rs.1,49,730 It is proposed to meet the cost as follows:-

	Rs.
(a) Grant already disbursed to the Municipal Council for this object- G.O.No.206 Financial dated 19-3-18	50,000
(b) Grant now proposed to be paid in the current year	73,400.
	1,23,400
(c) Municipal funds or public subscriptions	26,330
	1,49,730

The amount of centage charges is not correctly stated. They amount to Rs.29,616.

2. The financial condition of the Municipality is bad--vide para 3 of L & M note on pp 6-7 ante. It is therefore submitted that eventually the sum of Rs.29,616 now proposed to be met from municipal funds, which represents centage charges, will have to be given as grant-in-aid under G.O No.411 Finl. dated 21-5-18. In the circumstances it seems preferable that the building should be constructe as a Govt building and lent to the Municipal Council for use as a High school subject to the condition that the municipality keeps the buildi in proper repair--c.f., G.O.No.789 Edl., dated 23-8-13 for a precedent.

C.S

I can not see the use of it and I think we had much better keep the money

R.A.G
23-3-20

Home(Education)Department

It appears rather too late now to call on the D.P,I to submit proposals for the utilization of the sum available on other educational objects. The file may be sent u.o. to L & M for consideration of the suggestion at 'M' on page 3 ante.

N.K.23-3-20

R.R.R. 24-3-20

Local & Municipal Department

There seems to be no objection to the proposal of the Financial Department to construct the building as a Government building and lend it to the Municipal Council for use as a High school subject to the condition that the building is kept in proper repair.--vide G.O.No.2397 M dated 2-12-14. It is not likely that the Council will demur to this proposal as it has already requested that the work may be executed by the P.W.D and as it need not pay the centage charges. To make sure of the Council's attitude towards this proposal, it may be consulted in the first instance. A draft memorandum is accordingly placed below for approval

K.V.V. 26-3-20

The Memo may issue. It looks as though Govt. will have to take over Hd.quarter High schools in some of the more backward districts as they have already taken over Hd.quarter hospitals.

F.J.R. 27-3-20

Memo No.1947-2 M dated 29-3-20
C.No.353/M From C.M.C.Bellary No.1063-A dated 16th April 1920

accepted in this department and the file returned to Home(Education) u.o.

Necessary action inregard to plans and estimate for the work will be taken in this department on receipt of a copy of the G.O with notes.

R.R.R. 29-6-20

H.M.

From an educational standpoint I approve the draft, for a good secondary school building is an undoubted need in Bellary. The financial aspect should, I think, go to the Hon'ble Member in charge for the draft order commits Govt to meeting the entire cost. Though nominally a Municipal institution, Govt. pay the net cost and there is therefore some justification for similar liberality in regard to the provision of a proper building. The local bodies apparently cannot afford to contribute but I should have thought individual residents might do so; one at least (Mr.Sitarama Chetty) offered Rs.500 in 1916(see G.O.No.663 M dated 4-4-16)

Ref — M G.O no 769 Home (Education) & 1.7.1920, the Govt approved of the Construction of a new building with out-houses for the Municipal High School Bellary, at an estimated Cost of Rs 1,17,520 omitting the provision of Rs 5,880 for bonus from the estimate prepared by the S.E. The work has to be carried out by this dept.

2. The plans and estimates by the Home dept forwarded to this department (alon with a copy of the G.O. referred to ab have been examined by the Ch Engineer whose remarks are conta in his note read above. As a res of the alterations suggested by h the amount of the estimate h been raised fr Rs 1,17,520 (a proved by the Home dept.) to Rs 1,21, The C.E. recommends for sanct the drawings and the estimate amo

and the Inspector of European and Training Schools

5. Funds

KSN 3.9.20

The Asst Secretary, Financial Branch has, in his note dt 8.6.20, stated that for funds the Scheme will have to wait till 1921- (vide p4 ante). It will, however be seen from para 3 of GO No 769 Home (Edn) dt 1.7.20 that the Municipal Council Bellary has been directed to replace at the disposal of the PWD for utilization on the construction of the building the sum of Rs 50,000 sanctioned as a grant in 1918. If this realization is made now, the execution of the work can be taken up immediately. No fresh allotment of funds in the current year will be necessary.
